

Week blog

This document will be used as a template for the weekly blog of the Be Creative minor. Every student of the project group should keep up to date with this weekly blog. This blog will be used to keep track of the progress of the individual student and as a guide for the feedback session on the end of the minor.

Name student: *Robin*
Student number: *4188128*
Date: *16/02/2023*
Week: *01*

Activities

- First of all, we drew up and signed a code of conduct.
- This week I've been busy with properly defining the audio-DSP system. I did this together with my fellow students by making several block diagrams. The system is further subdivided by means of functional decomposition.
- Together with my fellow students, we have made a good start on the plan of approach. We have already done a little preliminary research on various topics. Think of looking at various processors, ADCs and DACs.

Process

COC prepared, contributed to the design of the block diagrams and the creation of the POA.

Appendix

NA, we all worked on the block diagram and POA.
