

Week blog

This document will be used as a template for the weekly blog of the Be Creative minor. Every student of the project group should keep up to date with this weekly blog. This blog will be used to keep track of the progress of the individual student and as a guide for the feedback session on the end of the minor.

Name student: *Youri Tils*
Student number: *4155017*
Date: *17/02/2023*
Week: *01*

Activities

Make a short story of your activities during this week. Examples of activities are meetings, research, documentation, design E.T.C.

A lot of meetings where was discussed what the project should be. During these meetings we made up the requirements, research questions and a system context diagram.

I wrote a part of the Plan of Approach, the chapter background and the chapter Quality assurance was written by me and the chapter Project results was partly written by me.

Process

Summarize all the progress you have made during this week. Your progress should overlap a bit with your activities.

The requirements and research questions are now clearly defined in the Plan of Approach. The system context diagram is made. The plan of approach is almost finished.

Appendix

Here you can add images and or references to work u have done during the week. This will provide proof of the work that has been done this week. Think for example about measurement u did in a lab.
