

Week blog

This document will be used as a template for the weekly blog of the Be Creative minor. Every student of the project group should keep up to date with this weekly blog. This blog will be used to keep track of the progress of the individual student and as a guide for the feedback session on the end of the minor.

Name student: *Hein Verhallen*
Student number: *466114*
Date: *28-02-2023*
Week: *01*

Activities

There were lots of meetings to discuss the project definition and requirements. Also I looked into version control utilizing git and github. I learned basic latex commands.

Progress

I have made an online repository on github and added the basic structure to be used and improved. Next to that I can now understand how basic latex documents work.

Appendix

Here you can add images and or references to work u have done during the week. This will provide proof of the work that has been done this week. Think for example about measurement u did in a lab.
